

Looking back at the project goals

- Strengthen international collaboration on agritourism
- Evaluate effectiveness of different forms of engagement
- Produce educational events and resources that are useful for agritourism operators and supporters
- Solicit your ideas of what we should do in the future

Looking back at the project goals

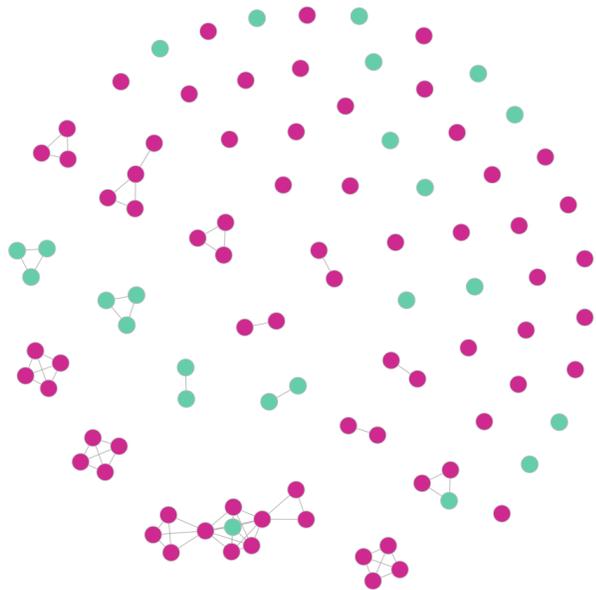

- **Strengthen international collaboration on agritourism**
- Evaluate effectiveness of different forms of engagement
- Produce educational events and resources that are useful for agritourism operators and supporters
- Solicit your ideas of what we should do in the future

Lori covered growth in collaborations

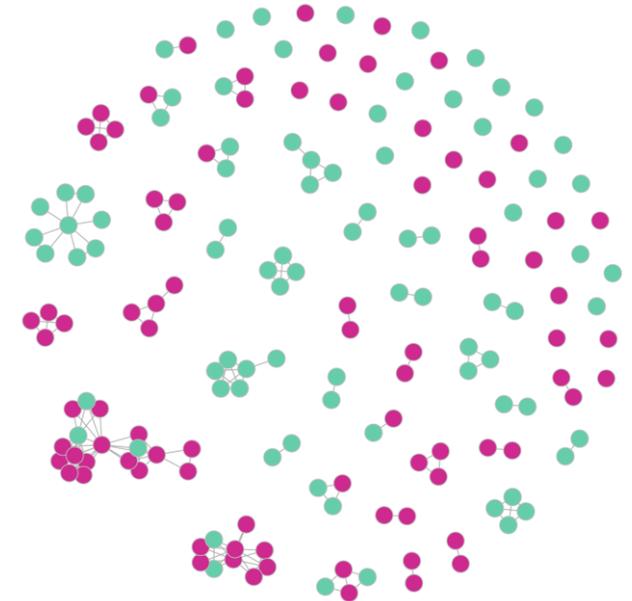

2018 WAC

Graphic from Begerowski, et al.,
2022

- Effective way to promote transdisciplinary collaboration
- **Caution to sustain connections and avoid silos**

2020 IWA

Graphic from Begerowski, et al.,
2022

502 Registered Members from 79 Countries

14 Regions which are not independent

Looking back at the project goals

- Strengthen international collaboration on agritourism
- **Evaluate effectiveness of different forms of engagement**
- Produce educational events and resources that are useful for agritourism operators and supporters
- Solicit your ideas of what we should do in the future

Claire highlighted the importance of:

- **In-person events** for networking
- **Hybrid and virtual** events for global accessibility
 - While they don't always help with networking, the educational impacts are still significant

Looking back at the project goals

- Strengthen international collaboration on agritourism
- Evaluate effectiveness of different forms of engagement
- **Produce educational events and resources that are useful for agritourism operators and supporters**
- Solicit your ideas of what we should do in the future

A new (US) agritourism resource repository

Image of UVM Extension workshop at Sandiwood Farm in Wolcott, Vermont

- 1) Building a library of resources for agritourism operators and service providers that will be housed on the AgMRC website.
- 2) Developing a national network of agritourism service providers

An online calendar for supporting the network

Looking back at the project goals

- Strengthen international collaboration on agritourism
- Evaluate effectiveness of different forms of engagement
- Produce educational events and resources that are useful for agritourism operators and supporters
- **Solicit your ideas of what we should do in the future**
