

## Sheep & Goat Protocol Development Workshop

This workshop is for commercial sheep and goat producers of all kinds (dairy/meat/fiber) who are looking to develop individualized herd health protocols for their farms.

Participants will have the opportunity to break up into groups with similar farm operations to create protocols together with guidance from veterinarian Dr. Dayna Locitzer. Examples of such protocols include: lambing/kidding, management of common diseases such as listeria, polio, and pneumonia, and protocols for parasite control.

**Thursday**

**August 31, 2022**

**10 a.m. – 12 p.m.**

**UVM Extension Office**

**327 U.S. 302**

**Barre, VT 05641**

**This is a free event and lunch will be provided.**
