

Vermont Suppliers for Native Bird and Pollinator-Friendly Perennials, Shrubs, and Trees

Revised February 28, 2018

This suppliers list was created for the Vermont Pollinator-Friendly Solar Working Group. Refer to Vermont's Pollinator-Friendly Solar Resources at www.uvm.edu/extension/agriculture/pollinator-friendly-solar. The Working Group serves to provide resources to solar developer who will create habitats with Vermont native and naturalized wildflowers, forbs, grasses, shrubs and tree that serve as habitat, forage, and migratory way stations for pollinators. Such plantings shall not include invasive species on the Vermont Agency of Agriculture, Food and Markets' Noxious Weed List or the Vermont Invasive Exotic Plant Committee Quarantine and Watch List or species deemed invasive in neighboring states.
